Soft Skill

ABOUT ME

I am a senior developer with more than 7 years of experience in various technologies and frameworks, especially React and Next.js, and I am passionate about creating exceptional user experiences.
I have the experience of leading the development team in project implementation from concept to launch.
I also have a proven track record of working closely with cross-functional teams, including designers and backend developers, to achieve project goals and deliver exceptional results.
My attention to detail and commitment to producing clean and maintainable code distinguish me as a meticulous developer.

EXPERIENCES

Frontend Developer

2022 - 2023

Social network project

• Full development and testing of the web application in React-js in the first phase of the project and rewriting the project to Next-js and equipping it with SSR in the second phase
